Tech Connect

The foyer will be transformed into a showcase for the latest technology for older adults. Older adults are becoming much more technologically savvy, by both necessity and choice, and that makes them hungry for new products and services that keep them connected to loved ones, caregivers, healthcare professionals and emergency services.

Tech Connect is your opportunity to offer these products and services, hold demonstrations and take advantage of an additional layer of marketing and promotion meant exclusively for exhibitors whose offerings are high tech in nature.

Health & Wellness Aisle

The Health & Wellness aisle is always the most popular area of the Expo. If you have a business or organization that has a focus on health and wellness you want to have your exhibit in this aisle! Whether you offer an onsite health screening or just health information, our guests will be looking for your booth. In addition you will receive additional exposure with your free listing as an exhibitor in this special Health & Wellness Aisle.
